

TopShield HYBRID BONDING SEALANT

TopShield Hybrid Bonding Sealant is a premium Scypolymer one-component sealant specifically designed for roofing applications and systems. The advanced technology of TopShield Hybrid Bonding Sealant results in a product that quickly withstands ponding water while bonding to many common roofing substrates.

Features

- Applies, adheres, and cures underwater
- 2 products in 1 - lap adhesive & scrim edge sealant
- No additional adhesives or sealants needed
- Remains flexible
- Works with EPDM membranes, tapes, and patches
- Can also be used for core/test cuts
- Non-flammable formulation

For Use On

Asphalt shingles, steel, concrete, EPDM, primed TPO, primed PVC, Hypalon (black only), metal, wood, and other common building substrates

BLACK - 10.1 OZ (24 tubes/case)
