

# #70 Acrylic Coating

## DATA SHEET

### FOR PROFESSIONAL USE ONLY

**DESCRIPTION:** Use TopShield PRO #70 White Acrylic Coating to protect the roof, resist mildew and reflect UV rays and blistering heat. The reflective properties of TopShield PRO #70 significantly reduce the temperatures of the roof surface.

**PREPARATION:** Pressure washing entire surface is recommended for best results (use only a wide fan spray tip). All surfaces must be dry and free of dust, dirt, oil, loose granules, gravel, peeling paint and all other foreign matter. Roofs must have proper ventilation. Roofs must have proper drainage and not hold "ponding water". Rusty metal must be cleaned with a wire brush and primed with a metal primer/sealer before application of this product. Repair all leaks and cracks with a roof patch and patching fabric in accordance with product instructions. Surfaces previously coated with aluminum, asphalt or tar should be allowed to cure for a minimum of one summer season prior to coating with this product. Surfaces with mildew growth or stains must be cleaned with a bleach solution (two parts water to one part bleach). Be certain all surfaces are thoroughly rinsed and dry prior to applying coating. Do Not Thin.

**APPLICATION:** Surface and air temperatures must be a minimum of 50 °F and rising. DO NOT apply if heavy dew or rain is expected within 24 - 48 hours. Apply on clear, sunny day in morning hours with a professional airless paint sprayer or a 3/4" nap exterior paint roller. First, apply one coat over all seams and joints. Allow to cure for one hour or until dry, then apply two (2) uniform coats over entire surface, avoiding excessive rolling. Two full coats are needed for all applications. Apply second coat perpendicular to first coat. Allow at least 24 hours between coats and 24 - 48 hours for full curing. DO NOT apply to flat surfaces, poor drainage areas, or where ponding water will exist.

**COVERAGE RATE:** Approximately 50 - 75 sq. ft. per gal. per coat. Total coverage for two (2) coat application is 25 - 35 sq. ft. per gallon.

**NOTE:** If roof becomes hot (over 100 °F) during application, lightly mist roof surface with water spray to prevent coating from drying too fast. Remove any excess or puddling water prior to coating. If roof surfaces become soiled as they age, due to the elements, elastomeric can be cleaned with a mild water and bleach solution. Excess scrubbing should be avoided. If coloring is desired, a typical addition of 3 - 4 ounces per gallon of universal colorant can be added, which will result in light pastel colors. Color tinting will disclaim warranty.

**STORAGE & HANDLING PRECAUTIONS:** Do not allow product to freeze. Protective clothing, gloves, and eyewear should be used during application of these products. When transporting this product, ensure that lid is tight and pail secure and upright. Do not allow pail to tumble as this may cause lid to loosen and leakage to occur. Do not transport on passenger seats or inside the passenger compartment of any vehicle. Store product in the cargo area of vehicle, and secure over protective cloths to prevent damage due to accidental spills. Close container after use.

**CLEAN-UP:** Clean tools with soap and water.

### TYPICAL PHYSICAL & PERFORMANCE CHARACTERISTICS:

Weight Per Gallon	11.25 lbs.	
Solids by Weight*	54%	
Solids by Volume*	40%	
Viscosity (ASTM D562)	115 - 120 ku	
Elongation (ASTM D2370)	275%	
Tensile Strength (ASTM D2370)	250 psi.	
Elongation, post weathering (%)	125%	
Reflectivity (ASTM C1549)	.87 (Initial)	.76 (3 year)
Emissivity (ASTM C1371)	.90 (Initial)	.90 (3 year)
SRI Value	110 (Initial)	94 (3 year)
Permeability (ASTM D1653)	<15 perms	
Adhesion to Polyurethane Foam	>3.0 lbs./in.	
Consistency	Brush, Roller or Spray	
Skin Time (50% Relative Humidity, 70 °F)	4 hours	
Full Cure (50% Relative Humidity, 70 °F)	24 - 36 hours	
Application Temperatures	55 °F & Rising	
Flammability	N/A (water based)	
Clean-up Tools	Warm Water & Soap	

\*Specification data may vary +/- 5% from published values.

### Approx. Shipping Weights: (Note: All approx. weights include container)

5 gallons (18.9L)	57 lbs.
55 gallon drum (208.2L)	620 lbs.

**VOC: <25 g/L (regulatory)**

**WARRANTY AND DISCLAIMER:** SRS Distribution, Inc. (herein SRS) hereby warrants to the original purchaser, contingent upon original proof of purchase, that this product will be free from any and all manufacturing defects that may materially and adversely affect the product's performance at the time the product is manufactured. Should a manufacturing defect materially and adversely affect this product's performance, SRS shall, within its sole discretion and upon receipt of Purchaser's timely written notice within the Warranty Period, provide replacement product(s) or refund the purchase price of the defective product. THIS LIMITED WARRANTY IS PURCHASER'S SOLE AND EXCLUSIVE WARRANTY AND REPLACES ALL OTHER WARRANTIES, CONDITIONS, REPRESENTATIONS AND GUARANTEES, WHETHER EXPRESS OR IMPLIED, WHETHER BY STATUTE, AT LAW OR IN EQUITY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This limited warranty does not cover labor or installation costs, leaks, or materials not manufactured by OEM supplier, consequential damages or incidental damages. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Direct all warranty claims in writing along with original proof of purchase to TopShield PRO, c/o Warranty Claims Department, 7440 State Highway 121, McKinney, TX 75070-2196. The exclusive venue for any legal action arising out of the purchase of this product or this warranty shall be had in a court of competent jurisdiction within Hillsborough County, Florida. Florida law shall govern. For additional Standard Limited Warranty information contact SRS at (855) 569-1550 or at info@srstopshield.com.
